

what does an automotive spray painter/ refinisher do?

If custom cars, paint graphics, and super-neat paint jobs give you a buzz - and if you've got a good eye for colour - you'll love a career as an automotive spray painter/refinisher.

You will learn to:

- carefully prepare panel surfaces prior to painting
- mix paints and to colour match to the original
- use modern spray painting equipment and spray processes
- understand the blends and multi-layered formulations in modern paints
- create special effects with paint and finishes.
